

Declaration of Decontamination for Repairs (Pumps, Modifications, Pump-Components)

Form
QM 02 P3-F3-e
Datum: 01.08.2019

The decontamination declaration must be completely filled out and delivered with the pump to be repaired or the pump component (e.g. impeller unit, bearings, etc.). A copy must be sent to repair-services@cp-pumps.com independently.

CP personnel will not open pumps or pump components delivered without a decontamination declaration. The inspection or repair will not be started! A Safety Data Sheet for the last liquid pumped must accompany each pump or pump component supplied.

Please refer to the Additional Information sheet for correct emptying and flushing of the pump. The drain plug of the pump must be removed for complete draining and correct flushing! This must be attached to the delivered pump (not reassembled, but attached to the pump). There must be no residual liquid in the pump. The pump components must be free of pumped liquid.

If the pump is not completely drained and flushed and the safety sheet mentions a hazardous pumping liquid, the pump or the pump component will be professionally cleaned by an external service provider at the expense of the customer.

Pumptype? (see pump tag / label)		
Construction-No./Serial-no.? (see pump tag / label)		
Latest medium pumped?		
SAFETY DECLARATIONS	YES	NO
Has the pump been fully emptied? (with drain plug removed)		
Has the drain plug been removed? (is it attached to the pump)		
Has the pump been fully rinsed, cleaned and decontaminated ?		
Are any residual liquids potentially dangerous for the health of humans and the environment? If 'Yes', what protective measures are to be taken?		

<u>QUESTIONS RE. OPERATION / DAMAGE OF PUMP</u>	YES	NO
Has the pump leaked to the atmosphere?		
Has the pump stopped / blocked during process ?		
Has the pump stopped / blocked during start-up ?		
Do you suspect dry-running ?		
What do you think is damaged or any other remarks about the cause and its effects?		

By signing in the box below, I confirm that I understand the questions above, that I have supplied complete and accurate information in this document, and that all materials being returned have been properly decontaminated, neutralized and/or rinsed thoroughly of product.
